

Everlasting space

Somewhere-where
 Neither existence
 nor nonexistence
 Doesn't exist
 In the space
 With no time or in the
 time where
 the space isn't important
 without any trace of
 day or night
 Neither here
 nor in the heaven
 where? and under the
 protection of whom?
 Neither death nor
 immortality
 Maybe there was
 the darkness
 in the very beginning
 and the power of life
 shut in the emptiness
 Power of life
 breathing in the calm
 according to its
 own laws
 It has arisen from
 the power
 of its own desire
 No god
 the space doesn't know
 the limitations

Tam niekde von
 kde neexistuje
 bytie ani nebytie
 V priestore bez času
 alebo v čase kde
 priestor nie je dôležitý
 Bez náznaku dňa či noci
 Ani tu ani v nebi
 Kde?
 a pod čou ochranou?
 Ani smrť
 ani nesmrteľnosť
 Na počiatku bola tma
 A životná sila
 uzavretá v prázdne
 dýchajúca v bezvetří
 podľa svojho zákona
 Zrodila sa z moci
 svojej túžby
 Žiadny boh
 Priestor je nekonečný
 nepozná obmedzenia
